

enMotion[®]

Recessed Automated Touchless Towel Dispenser

The enMotion® Recessed Automated Touchless Towel Dispenser uses advanced technology to transform the washroom experience.

No other dispenser on the market combines the advantages of a sleek, stainless steel finish, a recessed cabinet design and Georgia-Pacific's automatic touchless dispensing technology in one system.

With a wave of the hand, the enMotion® Recessed Automated Touchless Towel Dispenser elevates the image of your facility, helps improve hygiene, increases operational efficiency and makes a positive impact on environmental conservation.

Enhance your washroom experience

- Sleek, stainless steel styling conveys a high-end image
- Automatic, touchless dispensing prevents cross-contamination for a more hygienic washroom
- High-tech functionality and quality toweling make positive statements about your facility

Sleek, stainless steel styling

Increase efficiency

- One-at-a-time towel dispensing reduces waste and lowers operating costs
- High capacity system and paper transfer mechanism provide continuous service while reducing maintenance requirements
- Adjustable settings for sheet length, time delay, sensor range and dispensing mode allow customization for specific washroom needs

A simple wave of the hand activates touchless dispensing

Protect the environment

- One-at-a-time portion controlled dispensing supports the U.S. Environmental Protection Agency's (EPA) guideline to reduce usage and waste before it is created
- This dispenser and our EPA compliant paper towel can help your facility earn points as you complete the LEED (Leadership in Energy & Environmental Design) Certification Process with the U.S. Green Building Council

A choice of towels delivers comfort and performance
