Door Tissue Dispenser and Trash Receptacle

**Safe-T-Gard™
Door Tissue Dispenser
and Trash Receptacle**

It's an idea and real life innovation whose time has come. The first system to enable a virtually touchless exit and clutter-free washroom, it protects the one place where personal hygiene, public health and your image intersect every day.

“How thoughtful.”

Cleanliness matters — in perception and reality. Not only is there heightened awareness about the dangers of cross-contamination in food service, healthcare, office buildings and other public settings, American workers miss approximately 578 million work days a year due to illness.* That's billions in lost productivity.

*National Center for Health Statistics:
National Health Interview Survey, 2004

Unsightly garbage: Regardless of whether a restroom is disinfected properly, unsightly garbage can make it appear unsanitary. Studies show that people often use a towel on door handles when leaving restrooms and if a garbage receptacle isn't nearby, they often drop the towel on the floor.*

One smart defense is the Safe-T-Gard™ Door Tissue Dispenser and Trash Receptacle. This sleek, wall-mounted system lets clean hands avoid washroom door handles with less clutter.

One-at-a-time tissue dispensing reduces waste at the source, stemming the tide of clumped, paper towel litter and eliminating the need for a large — often overflowing — trash bin at the door. Staff and patrons alike appreciate the convenience of the companion trash receptacle.

*Hospital Solutions, February 2006 Issue

First of its kind in the marketplace, this convenient dispense-and-dispose system

- Encourages a more hygienic, touchless and uncluttered washroom experience
- Demonstrates concern for the health and well-being of employees and patrons by eliminating trash that potentially breeds bacteria
- Enhances your décor with 3 finish options and a lightweight, compact design that fits in tight corners
- Installs easily and can be drilled or even tape-mounted to the wall, maintaining the look of upscale interiors
- Eliminates the need for an unsightly trash bin by the washroom door

Elevate the washroom experience — and your image

Reduce waste and improve efficiencies

- One-at-a-time portion controlled dispensing reduces waste at the source and curbs excessive paper towel usage and floor litter
- High-quality Safe-T-Gard two-ply tissues are substantial, yet less costly than paper towels
- With 8,000 tissues per case (40 packs of 200) and a dispenser that holds 400 tissues at a time, the Safe-T-Gard system makes for efficient storage and infrequent restocking
- The trash receptacle accepts standard can liners and offers a lift-out collar for quick liner replacement. The quick-release hatch at the base permits fast trash removal without disturbing the stationary unit

Welcome To The Future of Clean™

More than just a thoughtful convenience. An active deterrent to discarded paper towel mess. And a sleek reminder to practice hygienic self-defense. The Safe-T-Gard Door Tissue Dispenser and Trash Receptacle is one of many Georgia-Pacific innovations making the touchless washroom of the future a reality today.
