SPECIFICATIONS

The enMotion® Recessed Automated Towel Dispenser holds and dispenses proprietary hard-wound roll towels. The cover is 24 gauge, #304 stainless steel, #4 AISI satin brush finish, with the grain in the vertical direction.

Weight:

6 Pounds
(without batteries or paper installed)

Dimensions:

16.48" H x 13.5" W x 7.75" D

INSTALLATION

When mounted directly into a wall, the unit is mounted using #10 self-tapping screws. Many possible methods can be used to mount the dispenser, given the wide variety of stud configurations behind the wall. The enMotion® Recessed Automated Towel dispenser has mounting holes on both sides of the backplate and directly in the rear of the unit. The unit must be mounted flush to the wall, 4" recessed to comply with ADA guidelines. The door of this unit can easily be removed in the event the hinge needs to be on the opposite side.

OPERATION

The enMotion® Recessed Automated Towel dispenser runs on 4 D Cell alkaline batteries (included) or an optional AC power kit, SKU 59477 or 59472. The dispenser features 3 LEDs, from left to right, a low paper indicator, a motor/sensor activation light and a low battery light. It has 2 dispensing modes: an on-demand mode, where a new sheet is presented when a hand is waved in front of the sensor, and a hanging-towel mode, where a new towel is dispensed as soon as a towel is removed from the dispenser. The enMotion® Recessed dispenser also features adjustable settings for paper length, and sheet delay. For more details, see the enMotion® Recessed Automated Towel dispenser instruction manual included with the unit.
